Preparing for Cardiovascular System Tests

Effective preparation involves:

- Reviewing anatomy and physiology thoroughly.

-

Question What are the main components of the cardiovascular system? The main components are the heart, blood vessels (arteries, veins, capillaries), and blood. Together, they work to circulate blood, nutrients, and oxygen throughout the body. How does the heart maintain blood circulation? The heart maintains circulation through its rhythmic contractions, pumping oxygenated blood from the lungs to the body and deoxygenated blood from the body to the lungs for oxygenation. What is hypertension and how does it affect the cardiovascular system? Hypertension, or high blood pressure, is a condition where blood pressure remains elevated above normal levels. It increases the risk of heart disease, stroke, and damage to blood vessels. What are common

diagnostic tests used to assess cardiovascular health? Common tests include electrocardiograms (ECG/EKG), echocardiograms, stress tests, blood lipid panels, and coronary angiography to evaluate heart function and detect abnormalities. How can lifestyle changes improve cardiovascular health? Lifestyle changes such as a balanced diet, regular exercise, quitting smoking, maintaining a healthy weight, and managing stress can significantly reduce the risk of cardiovascular diseases. What is the significance of LDL and HDL cholesterol in cardiovascular health? LDL cholesterol (bad cholesterol) can lead to plaque buildup in arteries, increasing cardiovascular risk, while HDL cholesterol (good cholesterol) helps remove LDL from the bloodstream, protecting the heart. What are common symptoms of cardiovascular disease? Symptoms may include chest pain or discomfort, shortness of breath, fatigue, irregular heartbeat, dizziness, and swelling in the legs or ankles. Why is it important to monitor blood pressure regularly? Regular monitoring helps detect hypertension early, allowing for timely intervention to prevent complications such as heart attack, stroke, and kidney damage.
